

BROMO

BALI TO BROMO

ITINERARY (5 NIGHTS)

DAY 1 | Mount Batur Ride

We will pick you up from your hotel or villa and transfer you to our **departure location in Ubud**.

After a Quick Briefing and introduction to the dirt bikes we ride up into Ubud's spectacular **rice paddy area**, crossing the Golden Bridge and riding through a pine forest.

After a delicious lunch in Kintamani we ride up into the **black eruption lava sand hills** of Mount Batur. Fantastic off-road riding. In the afternoon we ride down to the north coast line and finish our day at the Ocean View Dive Resort in **Tulamben**.

The sample Bromo itinerary below highlights what you can expect on one of our off road bike adventures from Bali to Bromo, Indonesia. Each ride is unique; routes may vary slightly due to weather conditions, road conditions and rider experience.

DAY 2 | Singaraja

Early breakfast, we begin the morning riding up into the **jungle hills** behind Bali's northern coastline. Excellent jungle trails and off road action as we make our way to the town of **Singaraja** for lunch.

ADVENTURE RIDERS INDONESIA

Afternoon ride is mostly scenic coastal tarmac winding along the **north east coast of Bali**. There is very little traffic on this road as its one of the more remote and less habitual areas in Bali.

Late afternoon we arrive in **Gilimanuk ferry** harbor where we will board a local car ferry for a short 1 hr ride across to Ketapang East Java. Dinner and beers at local hotel.

After lunch we will make our way through local plantation and up into the **Volcanic Lake of Mount Ijen** famous for its volcanic hot springs and blue fire sulfur mines.

Spend the night at a local homestay in the area.

DAY 3 | Banyuwangi Jungle Attack

Early morning start and a 20min tarmac ride brings us to Banyuwangi Jungle Attack. Name speaks for its self: **Dense jungle trails**, overgrown 4x4 roads, river crossings and corn plantations. The Jungle Attack has something for everyone.

DAY 4 | Ijen Plantation Ride

We start the mornings ride inside a **huge volcanic crater**. We cross the huge caldera on mix of mud and dirt trails through **coffee plantations** to reach volcanic ridge. An amazing view of the **volcanic cones** from inside the main crater.

After lunch we ride through some local **sugar cane plantations** on a mix small muddy tracks, rocky dirt trails and small tarmac roads. Afternoons riding take us back down the mountain on a **mix of off road and tarmac** to our Hotel in Jember.

Lovely roof top restaurant and bar at the hotel.

Afternoon we arrive at the greater crater of **Mount Bromo**.

The view from here is truly mind blowing and only accessible by off-road dirt bikes. We then make our way down the crater ridge through thick jungle trails and **volcanic black sand tracks** to the base of Mt Bromo.

Late afternoon we arrive at the local hotel with stunning view looking across the active volcanoes.

DAY 5 | Bromo Plantation & jungle

Extra early morning start as we have some distant to cover to make it to **Bromo** by sunset.

Mornings ride consists of some **Good tarmac and small village roads** through local farming areas and we will head south along the coast for some beach riding action.

After lunch we have some jungle and plantation riding taking us up through some of the **most dramatic scenery in East Java**. Local farmers plant their crops on steep cliffs on the nutrient rich volcanic soil.

We begin the morning ride to the **base of Mt Bromo** along volcanic sand 4x4 roads. There is a beautiful **Hindu temple** at the base of the volcano and if conditions are safe you are able to trek to the steaming rim of the crater. As we circle navigate the caldera on its volcanic tracks and forest trails it's easy to understand why Bromo has some of the best riding you'll find anywhere in Indonesia.

Lunch time brings us back to our hotel where the support vehicle is waiting to load up the bikes and a private car is ready to drive us down the mountain to Surabaya Airport and Flight to Bali.

DAY 6 | Bromo & Flight back to Bali

One of the famous **viewpoints in Bromo** is the early morning sunrise with specular views overlooking the **3 volcanoes**.

After some ride from the view point we return to the hotel for a buffet breakfast and a morning briefing of the last days riding.

To **ride a motor bike inside an active volcano** is an opportunity that doesn't come your way very often. Mt Bromo is a constantly active volcano belching out thick plumes of steam and sulfurous smoke.
